

Environmental Policy

Stephen Edward Constructions is committed to sustainable environmental improvements and development.

Stephen Edwards Constructions is committed to achieving continual improvement through compliance in accordance with AS/NZS ISO 14001:2016 – Environmental Management Systems and the applicable legislative requirements along with various client specific environmental management criteria.

To achieve this Stephen Edwards Constructions will:

- Provide guidelines for all aspects of Stephen Edwards Constructions operations including those of others who are associated with our undertakings
- Continually identify environmental impacts and provide resources including education and information to implement improvements to prevent pollution and reduce waste generated from our operations
- Establish and maintain procedures for setting, monitoring and reviewing environmental objectives and targets to achieve continual improvement in our work activities
- Communicate our policy on our environmental goals to all Stephen Edwards Constructions workers, subcontractors and other stakeholders
- Make this policy available to the public

The objective of this policy and of our management system shall be to reduce the footprint of our operations on the environment with the goal of reducing our carbon output. Everyone has a personal responsibility to conduct their work in a sustainable manner.
